

## Indiana Level of Care Assessment Representative (LCAR)

---

### **Process Reminder - Documentation Needed for Nursing Facility Admission or Readmission**

#### **Attention Nursing Facility Staff:**

If someone is seeking admission or "readmission" to a Nursing Facility (NF), a new Level of Care is not required if the individual has a Level of Care with a Long-Term Approval Outcome rendered within 11 months of the admission. In this instance, a PASRR Level I is required.

If the PASRR Level I triggers the need for a PASRR Level II, then the NF will be instructed to complete a Level of Care regardless of the date or decision of previous Level of Care.

If the individual is seeking to admit to the nursing facility and they have a Level of Care with an outcome of long-term approval that is older than 11 months, then a new Level of Care is needed.
